Mobile: 267-664-3250 Fax: 267-612-4078

Email: mike@perlowmp.com

Michael Perlow Jr., P.E. brings to an end a 40 year career in marine, coastal, land-based geotechnical and foundation engineering. As of April 2nd, 2015 Mike has retired from full-time consulting as Principal Engineer for Engineering Knowledge Management LLC of East Greenville PA. Mike has published numerous technical papers, gave presentations at conferences and professional society meetings during his career. He is currently a DFI Helical Pile Tieback and ASTM D-18 Soil and Rock committee member. For the past 8 years, Mike has focused on geologic hazard risk management, ground improvement, and helical pile design. Mike is currently working on a settlement based design methodology for drilled foundations along with a number of professional journal papers, presentations, and webinars.
