

FOR IMMEDIATE RELEASE**TorcSill Foundations, Relocates South Texas Office to Corpus Christi**

CORPUS CHRISTI, Texas – July 17, 2018 – [TorcSill Foundations, LLC](#), or “the company,” the global authority on helical pile foundation and anchoring systems, is proud to announce the relocation of the South Texas District office to Corpus Christi, Texas. This relocation reinforces TorcSill’s presence as the one-stop shop for helical pile foundations in the South Texas region.

“Locating in Corpus Christi enables us to better utilize our vertically-integrated resources on behalf of our plants and terminals Customers,” said Jeff Sullivan, Director of Sales and Marketing, TorcSill. “It is critically important for us to maintain the highest level of deliverability in the foundation engineering and construction business. Firmly establishing our home in Corpus affords us this Customer-focused opportunity.”

“Corpus Christi, Texas, is located in the heart of the Eagle Ford energy play,” Rich Knapp, Vice President of Operations commented. “TorcSill will continue to have excellent access to the entire South Texas region and Eagle Ford energy play as production continues to increase.”

TorcSill is excited for the relocation of our Three Rivers, Texas, office to Corpus Christi, Texas. An open-house is planned for August 23, 2018, at our new location. **Contact Jeff Collins at (832) 492-3696 for details regarding this event.**

About TorcSill Foundations LLC

TorcSill Foundations, LLC engineers, manufactures and installs helical piling foundation systems designed for a broad range of markets. TorcSill’s helical piles, also known as helical piers and screw piles and TorcSills, are a proven foundation solution that are ideal for energy, industrial and commercial applications, including oil & gas production equipment, midstream equipment, refineries and power & transmission equipment. The Company’s headquarters and ISO:9001:2015 compliant manufacturing facility are located in Pasadena, Texas, with field service and installation locations in Colorado, Louisiana, New Mexico, North Dakota, Oklahoma, East Texas, South Texas, West Texas, Texas Gulf Coast and West Virginia. TorcSill’s clients benefit from a turnkey product and service package that includes in-house research and development, design, fabrication, survey and installation. The TorcSill helical piles are rigorously tested and can be customized to meet specific, demanding project requirements. Company website: www.torcsill.com
