Centralia, MO 65240

Organizational Announcement

I am pleased to announce the additional of Drew Shufelt to the position of Western Region sales manager for CHANCE Civil Construction. Drew will be responsible for managing Civil Construction sales activities, providing support for existing customers, and developing regional sales strategies to achieve high rates of growth across this region.

Drew comes to CHANCE (Hubbell) from GE Grid Solutions where he most recently held the role of Senior Channel Manager responsible for North American opportunities and clients. He brings a strong background in sales and marketing with experience in heavy construction equipment, energy & facility solutions, and utility grid applications.

The CHANCE Civil Construction team is excited to have someone of Drew's energy and talent join our team and look forward to his efforts in the Western region.

Regards,

Nathan Vogt
