

Pengo is excited to announce they will once again be exhibiting at World of Concrete this January 23rd through 26th, 2018 in Las Vegas, NV.

World of Concrete is one of the largest annual international events dedicated to concrete and masonry professionals, including 1,500 exhibiting companies and 55,000 registered industry professionals across more than 725,000 net square feet of exhibit space!

Stop by Pengo's booth #C4621 in the Central Hall to see exciting new products, including the TruLink® 2.1 torque monitoring system. Pengo's TruLink system offers one-of-a-kind performance and technology, including true torque readings that deliver a high degree of accuracy while providing operators with real-time data. Latest updates to the TruLink 2.1 system include an upgraded 7" color touch tablet, WiFi capability, email capability, automatic data recording and much more!
