

**FOR IMMEDIATE RELEASE**

**Fort Mill, South Carolina**

MPS Civil Products Group currently has the largest product line approved through the AC358 process by ICC-ES.

MPS Civil Products Group is pleased to announce that its Dixie helical product line has recently received ICC-ES ESR-3032 renewal. The ESR-3032 approved product line of helical products provides the verification of product capacities which aid in submitting any helical project packet through the design or permitting approval process

MPS has long been a leader in the utility and civil construction industries and with the advent of the new MPS Civil Products Group, MPS now offers the same total solution philosophy to the construction market. Combining state of the art engineering services and software, the Dixie anchor line, and new partner Foresight Anchors, MPS has a solution for any commercial, residential, solar and/or specialty construction foundation or anchor application.
