Organizational Announcement

Steve Emsley – Western Territory Manager

It is with great pleasure that I announce the addition of Steve Emsley to the position of Western Territory Manager.

Steve will guide the Western Region as a business unit to increase sales and profitability of our existing product lines. In conjunction with his sales efforts, Steve will provide superior support to our existing customer base, and expand our network of distributors and direct customers across all market segments.

Steve brings Pengo 35+ years of customer focused sales and marketing experience. He has spent the last 10 years in the drilling industry specializing in foundation equipment for Kelly Tractor and Hercules Machinery Corporation (HMC). Through his previous roles, Steve has gained extensive experience, understanding and contacts in the majority of the markets we serve. Steve will provide a dynamic, high-energy, and professional approach to the Western Region with a proven track record of aggressive market penetration and territory expansion.

Pengo is excited to have someone of Steve's talent and caliber on our team. Please join me in welcoming Steve to his new position at Pengo.

Wesley Gibson
